

Makeup Lesson Information

Thank you for booking your makeup lesson with me! I'm excited to help you gain confidence and enhance your makeup skills. Here's all the information you need for your upcoming session.

Location & Duration

- **Location:** My studio address will be sent to you with access details once your booking has been confirmed.
- **Duration:** Lessons typically last 2 to 2.5 hours. Please allocate this time so we can thoroughly cover everything.

How to Prepare

What to Bring

- Your makeup brushes
- Your skincare products
- Your current makeup bag

Please wear your makeup as you usually would for the look you want to focus on (e.g., evening or daytime). There's no need to buy new products before the lesson, as we'll review and recommend products during the session.

What to Expect

- Be ready to discuss what you want to learn, your current feelings about your makeup, and how you'd like your makeup to look and feel.
- The lesson will begin with a thorough discussion of your current routine and techniques.
- Be open to learning and trying new application methods and colors.

Lesson Format

- I will demonstrate each step of your custom look on one side of your face, and you'll recreate it on the other side with my guidance. This hands-on approach helps build muscle memory and confidence.

After the Lesson

- Each step will be filmed and sent to you afterward for future reference.
- You'll receive a list of products used and recommendations for new items, along with purchasing guidance.
